

SUSTAINABLE ADOPTION

A READINESS WORKSHOP FOR OFFICE 365 AND SHAREPOINT

A one-day interactive workshop to maximize the return on your SharePoint and Office 365 investment by driving user excitement, facilitating lasting buy-in, and ensuring sustainable adoption.

KEY OBJECTIVES:

In this workshop you will gain best-practice adoption knowledge and tools, and be guided through the creation of a sustainable adoption plan. This plan will be the foundation for ensuring that your users take advantage of SharePoint and Office 365's full capabilities.

 <p>KNOWLEDGE</p>	 <p>SKILLS</p>	 <p>CONFIDENCE</p>
<p>Identify and optimally align Office 365 and SharePoint capabilities with your unique business needs.</p>	<p>Define mechanisms for training, on-demand learning, technical support, and peer motivation.</p>	<p>Develop a 12-month, phased sustainable adoption program for driving change and empowering users.</p>

WHAT YOU GET:

A personalized experience where our experts work with you to assess business needs and resources to create an adoption plan that's specific to your organization and can withstand long-term growth.

- Pre-workshop survey and live discovery call to tailor content to your business needs
- Full-day interactive workshop facilitated by an AvePoint sustainable adoption expert
- Framework for ongoing training, on-demand learning, and technical assistance tailored to your organization
- Gamification techniques as well as tips for identifying and grooming champions to generate excitement and peer influence
- Scalable support model to enable self-service support and community knowledge sharing
- Post-workshop advisory document prescribing a 12-month, phased adoption program that facilitates change, empowers users, and enables knowledge sharing within the organization

SUGGESTED ATTENDEES ROLES:
