

# AVEPOINT PODIUM

## FOR MODERN BUSINESSES

As organizations aim to modernize, communication with employees must evolve from being traditionally one-sided to dynamic conversations that embrace new mediums and approaches.

With AvePoint Podium, organizations can promote employee engagement and foster two-way communication via live video broadcasting and real-time feedback collection. Utilizing existing technologies, companies can transform how their corporate-wide initiatives are communicated globally while reducing overhead costs simultaneously.

### IMPROVE INSIGHT

Communicate virtually on corporate-wide initiatives while polling and surveying employee sentiment.

Trends and reporting are available to gain insight on employee sentiment and engagement.

### ENCOURAGE ENGAGEMENT

Broaden reach and overcome traditional barriers such as time and location by hosting online meetings in conjunction with in-person town hall meetings.

Deepen engagement and give employees a voice by conducting polls and surveys to quickly address questions or issues as they arise.

### INCREASE TRANSPARENCY

Keep employees informed by having recorded meetings – as well as actions, decisions, and information – readily available online.

Allow employees to submit discussion topics and agenda items directly into meetings.

## LISTEN. COLLABORATE. TAKE ACTIONS. TRACK RESULTS.

Using Microsoft technologies – including Azure Media Services, SharePoint, and Yammer – AvePoint Podium provides a centralized platform for organizations to work directly with employees to improve two-way communication. By giving employees a voice, organizations gain more insight into sentiment and can quickly address issues as they arise with ad-hoc meetings and questionnaires.

# ENHANCED EMPLOYEE ENGAGEMENT. INCREASED TRANSPARENCY.

Powered by:  AvePoint®  Media Service  SharePoint  Yammer®

## FOR EMPLOYEES:

- Become an active participant and agent of change by engaging organizational leaders in online forums during live, broadcasted town hall meetings
- Stay informed on current affairs by attending live town hall meetings and providing real-time feedback by submitting online questionnaires
- Gain insight into past town hall meetings by watching on-demand recordings
- Increase knowledge by accessing on-demand training videos and learning resources

## FOR COMPANIES:

- Measure the effectiveness of campaigns and corporate-wide initiatives with business intelligence tools
- Quickly pivot to address issues as they arise by responding in real-time through social media channels, blog posts, or live meetings
- Host online meetings in conjunction with, or in place of, in-person town hall events to remove traditional time and location barriers

## FOR MANAGEMENT:

- Broaden engagement across your company by taking advantage of video as an information sharing and communication platform
- Deepen engagement and gain real-time feedback for greater insight during live meetings with surveys and Yammer integration
- Provide transparency and accountability to stakeholders by tracking decisions and meeting records and responses for future review
