AvePoint®

PIPELINE

for Microsoft® Dynamics CRM

View and Manage CRM Opportunities On-the-Go

Swiftly load, navigate, and browse all opportunities associated with an individual sales person's or sales team's accounts on your Windows 8.1 and Windows 8.0* mobile devices

Enhance Management Insight and Reporting

Quickly identify opportunities that require close date or probability adjustments, and implement changes to improve forecasting accuracy

Optimize Account Management

Allow sales teams to quickly view and manage opportunity details to reduce customer response times through Pipeline's graphical and interactive display

* Note: Pipeline Lite & Pro with full features supported for iPad are coming soon.

Accessible content available upon request.
