

AVEPOINT MOBILE WORKFORCE

FIELD OPERATIONS: HEALTH INSPECTION

Bob, a health inspector, has been assigned a task near his current location.

Step 1

Following the route planner in the Mobile Workforce app on his phone, Bob soon arrives at the inspection site.

Step 2

Once there, Bob opens his assignment on his tablet, follows the inspection checklist, and takes photos of notable issues.

Step 3

As Bob performs the final steps of his inspection, a fellow inspector invites him to a video conference to get his opinion on another inspection site.

Step 4

After helping his colleague, Bob finishes his inspection checklist, enters his report along with the photos, and marks the task as complete.

End Result

Your Field Staff

All of the tools you need to quickly and efficiently complete field tasks.

Your Field Team Managers

Effectively allocate field staff using up-to-date location and status updates at the glance of a map.

Your Agency Management
