

DocAve[®]

Governance Automation Online

Release Notes

Service Pack 2

Issued September 2014

New Features and Improvements

- Now supports French interface.
- Now supports Custom Action for all service types.
- Interface now displays users' display name rather than login name.
- In Change Site Collection Settings service and Site Collection Lifecycle Management service, support Only allows site collection contacts or site collection administrators to submit requests for this service. In Change Site Metadata service and Site Lifecycle Management service, support Only allow site collection contacts, site collection administrators or site contacts to submit requests for this service.
- New information icon on Create Service page to show the description of the service type.
- Improved registration time for site collections when configuring the Quick Start Wizard for the first time, Governance Automation Online will register all of the site collections within the provided SharePoint Online admin center to DocAve Online.
- Support the role \$AdministratorContact and \$ManagerOfApprover in the CC section of an approval process.

Known Issues

- Does not support configuring questionnaires when accessing Governance Automation Online via Internet Explorer 8.
- Due to a SharePoint Online API limitation, Governance Automation Online retrieves the site collection **Last Modified Time** as the **Last Accessed Time**.
- If you create a custom library template in SharePoint Online with **Include content** selected and then create a Library/List service for this custom library in Governance Automation Online, approving a **Create List/Library** request will create a library without content. This is due to a SharePoint Online API limitation.
- In the Create Site service, site collection URLs that contain **-public** in the Template store field will not be checked as valid. This is due to a SharePoint Online API limitation.
