

Technical Account Management Services Overview

As Microsoft technologies continue to play a vital role in collaboration initiatives, downtime and business interruptions put roadblocks in the path of organizations relying upon the platforms to meet dynamic business and technical needs. AvePoint helps more than 15,000 organizations and 5 million cloud users worldwide migrate, manage, and protect Office 365 and SharePoint data to gain more value from the platforms and grow their deployments.

AvePoint's Technical Account Management (TAM) services are designed to provide the technical and business resources required to fully optimize the benefits of AvePoint solutions for the Microsoft collaboration technology stack.

With three robust service package options, AvePoint delivers a complete technical support service that can be tailored to meet your specific needs.

AvePoint's TAM Services provide organizations with:

- A single point of contact experienced in both AvePoint and Microsoft technologies.
- Alignment of product capabilities with core business needs.
- An internal advocate for when issues are met.

With a trusted adviser helping you maximize return on your Microsoft investments, experience less downtime and even greater productivity.

"When we encountered an issue during our implementation, AvePoint provided the support we needed quickly and had a patch we could implement within a few days to solve the challenge."

– *Cameron McBride,*
Manager - Systems & Software
Solutions, Western Health

"AvePoint's technical support is first class. They're quick to respond, easy to work with, and lay out all the steps I need to follow to resolve issues."

– *Rob Simpson,*
Systems Engineer, Hawke's Bay
Regional Council
