

# Compliance Guardian Online 3

## Release Notes

Service Pack 2

Issued June 2013

# New Features and Improvements

- Defined the license control logic.
- Added **Compliance** and **Common** to group the permissions in the **Compliance Guardian Online > Group Management > Create Group** or **Edit Group** interface.
- Added **E-mail Template** in the **Settings** module to support using different e-mail templates to send alert e-mails.
- Added support for exporting SharePoint Online scan's related reports to HTML.
- Added an **Alert Profile** and filter policy for scanning SharePoint Online sites.
- Added search functionality to **Scan Result**.
- Added **Human Auditor** in Compliance Reports.
- Added **Auditor** in the **Settings** module.
- Added the **Enable rendered crawl** option in the spider profile that is used to scan websites to support crawling the data that are loaded dynamically using JavaScript.
- Added functionality to allow users to add the **ADN** or **OR** node in the test suite.
- Added support for creating scans to scan SharePoint Online sites.
- Allow users to add the **RiskFormulas** node in the test suite for measuring the risk level.
- Added the Check Manager functionality, also added functionality to allow users to edit the test suite XML file in the Test Suite Manager.
- In Compliance Report, adjusted the display of the scan and the related buttons (**Save As Default**, **Delete**) in the Scan filter.
- Updated the Compliance Guardian Online 3 SP2 Help file.
- Updated the license related e-mails' contents and styles.
- Removed **Maintenance Expiration Time** in License Manager.
- Defined the trial license limitation for Compliance Guardian Online scans:
  - The maximum number of SharePoint Online items that can be scanned in one SharePoint Online scan is 100.
  - The maximum number of webpages that can be scanned in one website scan is 100.
  - The user can only have 10 scans in total and 100 jobs in total.
  - The user can invite 10 users in total.
- Blocked some countries when registering and limiting some specified IP addresses, e-mails, first names, last names, and organizations from using Compliance Guardian Online.
- Added the search textbox in a drop-down list when the number of the items displayed in the drop-down list is greater than 20.

- When you edit a check and select **Save**, a message now appears to display the test suites that are currently using this check.
- Improve the **Test Suite Manager > Edit Basic Settings** interface. In the **Check Selection** field, the check groups and checks have structure. The checks under a check group are listed under the test group. If you deselect the checkbox before a test group, all of the checks under the check group will be deselected.
- By default, Compliance Guardian now uses iText to scan PDF files.
- Added the authentication profile used for scanning SharePoint Online sites.
- Added the **Warning** status for files in Compliance Reports.
- Updated the built-in user agent profiles and updated the user agent strings to the newest versions.
- Added support of Compliance Guardian Online engine load balancing for scanning files.
- Standard users cannot view the **Share Mode** option when they edit other users' profiles, scans or, policies.
- When a user selects **About** in the drop-down list that appears after selecting the **Help** button in Compliance Guardian Online, the Compliance Guardian Online product information displays.
- In the **Forgot Password** interface, the verification code can be read out when you select the **Speaker** button.
- Added the **Enable rendered crawl** option in the spider profile that is used to scan websites to support crawling the data that are loaded dynamically using JavaScript.
- Added a confirmation window when users delete jobs in Job Monitor.
- Remove the limitation of only showing the top 500 records in **Compliance Guardian Online > Reports > Scan Result**.
- Under the **Details** tab of **Job Monitor > View** interface, the **Comment** column now displays the reason for each failed or skipped URL.

## Bug Fixes

- Previously, if a user accessed Compliance Guardian Online with a Firefox browser and did not clear history and cookies, JavaScript would not receive updates. In Compliance Guardian 3 SP2, the method of referencing JavaScript and Cascading Style Sheets has been changed to fix this issue.
