## Migration

### SharePoint Migration

- When selecting a SharePoint 2010 Survey as the source and manually inputting a SharePoint Online library as the destination, the source Survey questions will migrate to the destination properly.

## Administration

### Administrator

- Added the Apply to System Lists/Libraries section in the Configure Rule interface of Policy Enforcer. Users can select this option to apply the configured versioning settings to the system out-of-the-box lists/libraries in SharePoint. This can be seen in User Information List and Site Pages when configuring the Information Rights Management (IRM) SharePoint 2010 or Information Rights Management (IRM) SharePoint 2013 rules.

## Data Protection

### High Availability

- When all of the production or standby agents cannot be reached, the failover/fallback of AlwaysOn Availability groups will be performed properly.

### Granular Backup and Restore

- Removed the farm name from the Media cache location path.
