

# DocAve<sup>®</sup> Online 3

## Release Notes

Service Pack 2, Cumulative Update 1

Issued November 2013

## New Features and Improvements

- DocAve Online is now localized in Japanese. If a user selects Japan as the country or region when registering an account, the DocAve Online interface will automatically display in Japanese. If that user invites any other users to DocAve Online, their interface will also display in Japanese by default.
- Job Monitor now has a Job Queue feature which allows users to view and manage any jobs waiting in queue. The current Job Queue limit is five simultaneous jobs.
- When creating a physical device with SFTP/FTP storage type in Control Panel, users can specify the root folder structure in SFTP/FTP to store the data. If the chosen root folder structure does not exist in the SFTP/FTP, the root folder structure will be automatically created in the SFTP/FTP server.
- All modules in DocAve Online now support Microsoft SkyDrive Pro (SharePoint Online My Sites) (except Exchange Online Backup and Restore).
- DocAve Online support scanning Microsoft SkyDrive Pro (SharePoint Online My Sites) to register SkyDrives automatically.

# Notices and Copyright Information

## Notice
