

Content Lifecycle Management for File Shares with File Share Archiver

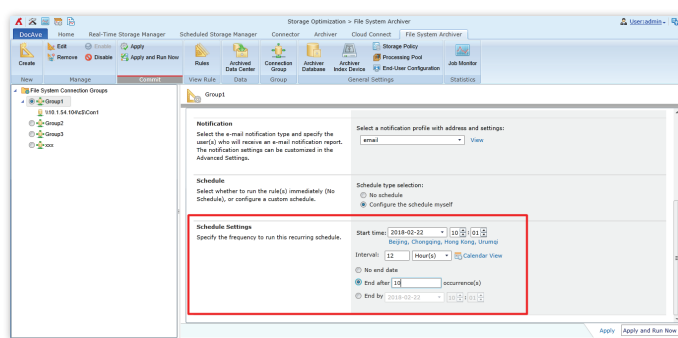

Flexible file share data archiving. Reduce cost. Enforce compliance. Enhance records management.

Capture Data With Flexible Archiving

- **Data Identification** - Configure custom business rules using age, creator, or tags created by AvePoint Compliance Guardian, to identify content for archival
- **File Share Data Archiving** - Retire files and folders on legacy file shares and home drives, preserving all properties and metadata
- **Flexible Scheduling** - Archive content on-demand, or on a custom schedule that minimizes business disruption

Data Identification with Compliance Guardian Tag

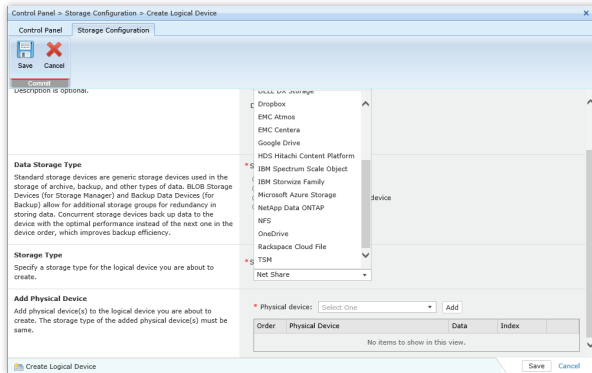

Flexible Scheduling

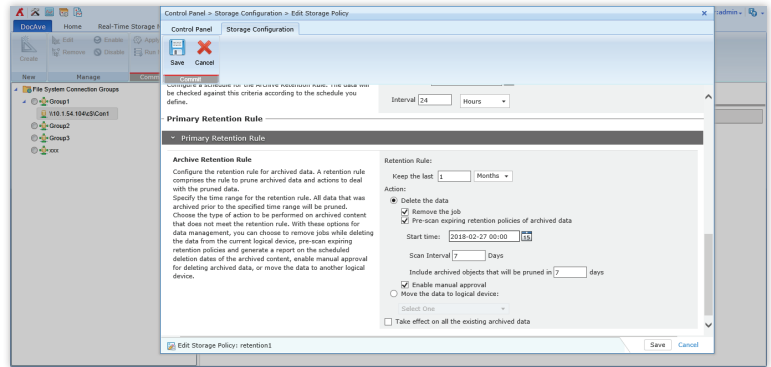

Effective Storage For Cost Reduction

- **Storage and Retention Policies** – Apply retention rules to preserve or remove content in compliance with information management policies, or to move stale content to cool storage for reduced cost
- **Data Encryption** – Encrypt archived file share data for added security – using AES, DES, or Blowfish encryption methods, a key length of your choice, and an automatically or seed-generated key
- **Data Compression** – Choose a compression level for your archived data to further reduce your storage footprint

- **Data Storage** – Store encrypted and/or compressed, archived content in any Net Share or Microsoft Azure Storage, or move archived data across storage systems as retention periods expire

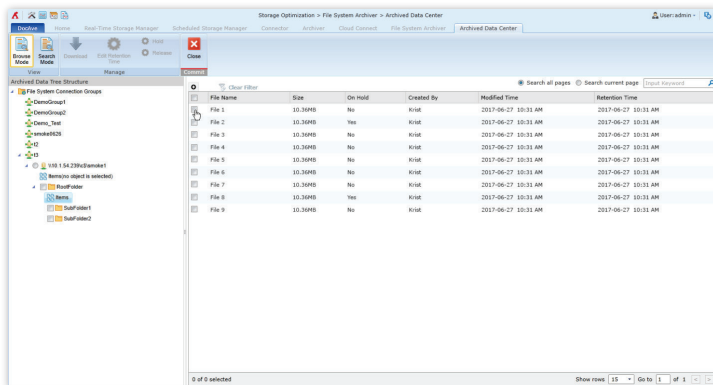

Configure Storage and Retention Policies

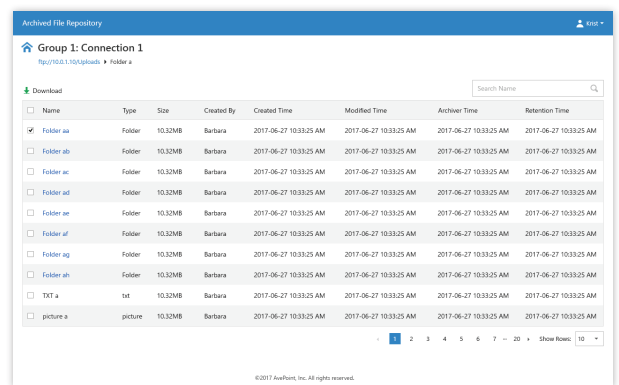

Data Storage Types

Discover & Export Records

- **Seamless Experience** – End users maintain a seamless experience with the use of stubs, or links, that redirect users to the archive store for easy access and on-demand recovery options
- **Delegate Control to Content Owners** – Allow business users to maintain access to a full-text index of archived content for simple eDiscovery and easy downloading with a security-trimmed portal
- **Export Records** – Browse or search for content to download and export in its original format, or in EDRM XML so it can be managed by the Electronic Discovery Reference Model
- **Restore at any time** – Enable full-text search and restore for archived content via DocAve at any time

File Share Archiving
